EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Belser Townsend on 5/11/07.

The application has been amended as follows:

IN THE CLAIMS:

Claim 17, line 4 "towards it tip and dividing it into" has been replaced with --towards a tip of each of said gear teeth and dividing each of said gear teeth into--.

Claim 17, line 6 "enabling it to be" has been replaced with --enabling said second half-tooth to be--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art neither discloses nor renders obvious the claimed combination of claim 17 comprising: a recess in said second half-tooth enabling said second half-tooth to be deformed elastically upon compression, said recess being enlarged increasingly away from the tip of the tooth towards the root circle of the wheel such that said second half-tooth has a width that increases from base to tip and said first half-tooth has a width that decreases from base to tip in order to have a rigidity greater than that of said first half-tooth.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
